

Hello from the Ol'Granny.

Hello Patriots – and I mean all you U.S. Citizen Patriots.

I hear the arguments for and against Trump. I hear you say you won't sacrifice your principles. I hear all the bad things about Trump. I hear them and I truly respect your choices.

Here is my take on this whole issue. We had some excellent candidates in the beginning, Cruz, Carson, Rubio, Fiorina, Jendle? - all excellent choices in my opinion. My number one choice was Cruz, and my number two choice was a toss up between Carson and Fiorina. But they lost. They all lost.

We are stuck with two candidates that are far from what we believe would make good Presidents. But, we must put our issues aside, we must put our ideals, our principles, if you will, aside. At least for this one important event. We must stop Hillary. We must!

My Grandchildren see me going out every week, to protests, to rallies, to knock on doors for issues we believe in. They hear me making calls to our delegates in Harrisburg. They see me writing letters. They see me struggling with all the work to help elect people we believe will make a difference. We gathered to elect responsible School Board people who are of our beliefs and we work the polls on election day. They see us doing so much and, we tell them. We are not doing this for ourselves. Sam and I are old. We won't see much of the happenings, good or bad coming up. We are working for you, our Grandkids and our unborn great grandkids. We want them to live in a world similar to how we grew up. At least with the freedoms we all enjoyed.

In reality, there is no viable person that can beat Hillary or Trump at this time in our History. No third party candidate can possibly win. We once had a Ross Perot? Who was very well known and, who campaigned like crazy but in the end – he succeeded in getting elected the person we didn't want. We must put aside our principles, our opinions and think about the Country only. We all know where the Country will go if Hillary is elected. We know the Supreme Court Appointees she'll make. We can only imagine all the liberties we will lose. We know we'll take huge hits at the 1<sup>st</sup> Amendment and the 2<sup>nd</sup> Amendment. There won't be any back and forth talking on Facebook. We will be taxed into servitude.

Our kids and grandkids will suffer under Common Core for sure and there won't be a thing we can do about it. Say goodbye to the Tea Parties, she'll make it very uncomfortable to keep these gatherings going. We already have to be careful what we say – political correctness. But it will get worse. Instead of being called a racist or worse, we can probably expect to have much more severe punishment incurred on those of us that take a stand as we do now. With the IRS, they can hurt us severely, we know of several Tea Party members that already have been persecuted by the IRS for being a tea party member. And, Hillary will make it much worse. You can bet your life we'll have the bathrooms open to anyone that feels like being that particular sex on any particular day at any time. Your girls will be required to take a shower with bodies that have male sex organs. Or refrain from taking showers at all.

Trump has said some things that I do like. He says he'll support the Military and make it supreme again. He'll take care of our Veterans. He'll take care of immigration so that we aren't run out of our own country. He'll secure our borders. I believe he truly loves the USA. I believe he'll do whatever he can to make us a world power again. I believe he won't bow down to other country dictators. I believe other countries will start to respect us again. If it's fear, then so be it. In the Bible God wants us to fear Him. Fear brings healthy respect. Fear brings obedience. I like these promises. I know many of you say Trump lies and may not do all of these things, but we know for sure, Hillary will not do these things. I

know these will be good for our country. Yes he has many many faults. But we can't have Hillary. We know what she'll do. We're far from 100% sure what Trump will do, but I believe most of it will be to our liking. And, if not, we can boot him out. It's hard, but we can do it. Nixon got heaved – remember. He chose the easy way by resigning. We could oust Trump. We fight for our liberties now, and we could get rid of him. I don't know if any of you know anything about Mike Pence – Vice Presidential Candidate. He is Presidential. He is everything you'd want in a President. Look at his home state what he has done and that'll tell you what he is and his character. He is a great person. I met him personally, hugged him and kissed him even. If we got Trump out for not upholding his end of the bargain, we'd be in a great position with Pence. Look him up and see for yourself.

Under Hillary, Our Constitution will be shoved into oblivion. They say even now that it's outdated and should be changed. They'll change it to what they want. The Courts will uphold it. We'll lose. Do you people hear what I am saying --- we will lose.

And the biggest problem I have with all this is what my grandkids will say about me in the future if Hillary wins. They will ask why didn't we stop her. Why did we allow her to get elected. With all the effort we put forth, why didn't we all come together to beat her. Why is our lives so devastated now. Why can't we do what we want, when we want, and how we want. Why have our freedoms been taken away from us. Why did MiMi and PopPop let this happen. Why didn't they try harder?

I will turn over in my grave to see this happen to the people I love most in this whole wide world.. Yes, I am going to do everything I can to urge you to vote for Trump or better to beat Hillary.

I will never rest in peace knowing I could have done more –if Hillary is elected, I will know I didn't do enough.

So Please, for my Grandchildren and yours, swallow your principles, grit your teeth, hold your nose. But Vote Trump. I am praying several times a day about this. I know God will forgive you for compromising your values. I know God wants this country to flourish. I know He has reservations about Trump as well and I ask Him every day to put His arms around Trump's shoulders and His hand over his mouth.

God Bless This Great Country.]
