

Comments from the Ol Granny, Linda Brancadora

Hello Again. Here I am again making a plea to all you “no trumpers”. I told you I must do everything I can to help Trump win and Hillary LOSE.

I hear people saying they don't like the 2 party system anymore and they wish to change it. But why now!!! Why not 2 years ago. Why not 2 years from now. Now is a critical time in our History. We are about to elect someone that will change our lives for a very long time.

If either candidate wins, he or she will change our lives for generations. Either one will appoint a Supreme Court Justice or maybe 2 or 3. We know Hillary will appoint a Liberal minded person – maybe even Obama himself. Oh the very thought of it makes my blood boil. The other Candidate will appoint maybe someone of not our first choice, but at least not devastating to our Country. Maybe even Cruz!!!

Doesn't that sound good to you? It sounds pretty good to me.

I hear rumors that Hillary was given the questions to the debate in advance. Doesn't that just figure. I mean, how much more corrupt can anyone be. Nothing she does surprises me. That is why we must elect Trump.

The force of the words of James in the Bible says “Whoever knows the right thing to do and fails to do it, for him it is sin” James 4:17. Also, quoting the Bible Matthew 6:13 “Lead us not into temptation, but deliver us from evil”. I truly believe Hillary is EVIL in all caps.

“But my conscience won't let me vote for Donald Trump” I wonder if their consciences have considered the destructive consequences that would come from a Clinton presidency. At least a vote for Trump would be doing something to prevent these things.

Several Things that are positive reasons to vote for Trump.

The Supreme Court , of course, is a major major consideration. Maybe we could stop the Supreme Court from making laws from the bench and return to a nation of the people and their elected representatives.

- Abortion - think about this one law – perhaps Roe v. Wade could be overturned. We must save millions of unborn babies that will be put to death under Clinton's Supreme Court.
- How about School Choice - that in itself would be a major fantastic benefit to all children and especially the inner cities. Parents would dictate which schools are best and the bad schools would fail and go away. The enrollments of the schools would tell us all which schools are good and which are bad. It's just like supply and demand.
- Religion - A conservative Court would vigorously uphold the First Amendment , protecting freedom of religion and freedom of speech for Christian colleges, Christian ministries, and churches.
- Freedom for Christian influence in politics. That is Amend the IRS code which now silences pastors from speaking about political issues for fear of losing their tax-exempt status.

Trump's choice of a Conservative Vice President – Indiana Governor Mike Pence. Trump could have chosen a moderate.

Trump has pledged to cut taxes significantly – Clinton wants to raise them significantly. Know that cutting taxes increases jobs and higher pay levels for employees.

I believe Trump will make a big improvement to our Military – increase budgets – make us the powerful force we need to be to keep world peace. Clinton hates the military and she will continue to deplete our forces and make us dependent on UN – which of course we all know we would have to take orders from other Countries – imagine that US taking orders from UN countries that despise us. Not on my watch absolutely no – I would be in favor of ending the UN altogether. I don't want other countries telling us what to do. No No No - And the Borders – what about the Borders. Obama and Clinton says our borders are secure as they've even been. - I don't think so!!!!

Which candidate will do the best for our Country. This is a no-brainer.

If you won't vote for Trump – you automatically vote for Hillary --- no ifs, ands, or butts!

If you won't vote for Trump for your own kids, vote for him for Mine.

Please.
